PARENTING TIPS TO HELP YOUR CHILD SUCCEED

Being a good parent is one of the most difficult and rewarding jobs you will ever have. Every parent wants their child to succeed in school and in life.

Act as a positive role model by demonstrating a positive and healthy lifestyle. Be sure your lifestyle choices do not put your child at risk for physical or emotional harm.

Provide nutritious food, appropriate clothing, and a safe and healthy home. Use an age/size appropriate car safety seat. Provide supervision according to your child's age and needs. Be constantly aware of the activity and whereabouts of your child.

Make sure your child gets regular medical and dental care. Know basic first aid techniques and treatments.

Understand your child's ages and stages. Interact with your child in a developmentally appropriate manner. Your child should be able to wait to get your attention and help to pick up toys.

Show affection to your child by providing hugs and gentle touches. Comfort your child when he or she is upset. Interact with your child through conversation, eye contact and facial expressions. Use positive words and avoid "put downs." Children respond best to praise and positive reinforcement for appropriate behaviors.

You are your child's first teacher – what you do impacts your child's love of reading and learning. Help your child get the most benefit from his/her school experiences to assure they reach their full potential. Be aware of community resources if you are having difficulties dealing with your child in any way.

- Prepare your child for school success by providing appropriate books and toys.
- Read to your child every day. Take your child to your local library.
- Interact with your child in a variety of play and reading activities.
- "Get down" to your child's level during play activities.
- Be understanding and sensitive to your child's wishes and needs.
- Spend time talking with your child.

Learn, and use, a variety of behavior techniques that are developmentally appropriate for your child.

- Plan Ahead – Prevention and preparation are necessary to keep your child safe.
- Use Positive Reinforcement – Catch your child being good and offer praise.
- Distract your child from inappropriate behavior or activity by offering a diversion or substitute activity, or a change in the environment.
- Provide appropriate activities and choices for your child.
- Behave in a manner that sets a good example for your child.
- Set appropriate limits for your child and maintain them; establish house rules which include routines and a framework for daily living.
- Discipline your child with care and appropriate actions. Use "Time Outs" or Counting Out and Counting Down. (Counting Out - You have until the count of three to do…; Counting down – In ten minutes it will be time for your bath.)
- Set natural and logical consequences for misbehavior, such as taking away privileges.
- Be consistent with your child.

Take time for yourself and take care of yourself. It is important for you to enjoy activities alone or with other appropriate adults.

KINDERGARTEN READINESS CHECKLIST

As your child quickly approaches school age, you may be wondering if he or she has developed the skills necessary to be successful in this new and challenging part of their childhood. In order to help your child with the transition, United Way of Lancaster County's Success by 6 has provided you with the following list of behaviors that school districts and preschool programs across the state consistently look for to understand a child's readiness for the school experience.

Please keep in mind: any child who meets the locally determined kindergarten age requirement is eligible to attend kindergarten. This resource should never be used to exclude an age-eligible child from kindergarten.
