OUR SOLUTION

Elizabethtown Area HUB mobilizes its community at the organizational level and at the individual level to tackle poverty together in Elizabethtown. Local agencies came together to start Community Place on Washington - a centralized location where organizations can more easily and efficiently share resources and community members can access or be referred to a variety of services such as emergency food and shelter, high-quality child care, counseling services, and career services. The HUB is also educating individual community members on empowering one another to overcome generational poverty.
